Spare Tire, Paint and Curtains  
as Good as New, Used by Careful  
driver. **\$600.00**

**Dominion Motors Limited**  
EDMONTON HOME OF THE FORD

### No Fair This Year

A meeting of farmers and others living in the town and district met in Stony to discuss the advisability of holding another of Stony's annual fairs.

The chair was taken by W. M. Washington, president of the Agricultural Society, and a fairly good sized crowd was in attendance.

Considerable time was taken up in discussing the subject from all angles. At the conclusion it was decided unanimously to pass up the holding of the Fair for 1925.

In its stead, it is the intention of the directors to have a short-course school held in Stony during next winter, when the special train with live stock, poultry and other exhibits, will be here. These will be accompanied by lecturers for each class. It is some ten years since a short-course school was held here.

### Good Roads Needed

As was to be expected after the heavy snowfalls of the past winter, the roads in some places, this spring, are in poor shape.

About the worst within a big radius of Stony is on the Meridian road, just north of the Baseline. This spot was repaired last season and a new bridge crossing the creek installed, but the structure has proved inadequate to the demands and the rising waters have played havoc with the bridge approaches, compelling all travellers to use the road one mile east, for a time.

and those who attended it then speak very highly of it. The Agricultural Society will, this summer, hold a standing fields of grain competition in this district, in which prizes will be awarded.

Arrangements are also being made with the Dept. of Agriculture to hold a seed fair in Stony Plain next season.

### LOCAL NEWS

Mr. P. Lawton is recovering from an attack of tonsillitis, and is spending the holidays at his summer cottage, Selsa.

Mrs. Elliot spent the weekend with friends in the City.

Mr. and Mrs. Jas. Lowe arrived from B. C. and have taken up residence on their new location near Edmonton Beach.

Mr. Karl Strass is moving in to town from the farm this week.

Miss Gertie McLeod, Calgary, is visiting this week with Mrs. James Smith.

Mr. A. E. Michael made a business trip to Edmonton on Saturday.

Paul Wagner, Duffield, was a business visitor to Stony Saturday.

The local school re-opens on Monday next, the 20th.

Mr. Ph. Altheim is negotiating for the purchase of the Elliot house.

Emil Zachr, Hwy. Lakes, visited with relatives here this week.

Reinhardt Jenkins of the C. N. Ry. was in Stony Saturday, and arranged for three more carloads of topsoil to be shipped to Jasper Park.

A meeting of the Football Club will be held tomorrow (Friday) night at the Royal Hotel.

At the last meeting of Ingo M.D., an motion of Council for Goetz, \$200 was donated to Stony Plain Agricultural Society.

The police have received instructions to see car-drivers have the 1925 tags on their autos.

Johnny Miller this week received a shipment of car batteries and auto accessories. Mr. Miller is arranging for another shipment of new Ford cars.

Mr. C. Schultz has added several more milk cows to his outfit at his dairy farm, having now 19 giving the lactical fluid. Charlie expects to have 50 heifers for his milking machine when the grass arrives.

Born's Movie Pictures were shown again Saturday night in Ducholke hall. The last feature shown, the Plastigrams, were exceptionally good and created a lot of amusement among the younger patrons.

Young Bill Goetz drove in to town Saturday night to attend the movies. While there, some "friend" played a joke on him by removing both the bridles and the driving reins from his team.

The debate at the Literary Society meeting on Thursday was abandoned and instead a short-course concert given by some half-cozen pupils.

There will be a lantern slide and lecture Friday night, the 17th in the local Methodist church. The subject will be "With St. Paul in Rome." Rev. W. J. Whelan will conduct the lecture.

## TEA "is good tea"

And most grocers recommend it.

### Taxation and Obligations.

Insistent demands continue to be made in many quarters upon the Dominion Government to follow certain financial and economic policies which may be briefly summed up under the following headings:

1. Reduce the Income Tax.
  2. Reduce the tariff.
  3. Reduce railway freight rates.
  4. Reduce ocean freight rates.
  5. Reduce all national expenditures.
  6. Lower the rate of letter postage.
  7. Commence paying off the national debt.
- Equally insistent demands are made upon the Government at Ottawa to:
1. Provide more employment.
  2. Develop natural resources.
  3. Increase immigration to promote such development.
  4. Construct great public works.
  5. Build the Hudson Bay Railway and various branch lines.
  6. Develop the St. Lawrence canal and power schemes.
  7. Increase the tariff to encourage home industries and increase employment.

Inasmuch as one set of demands lie, in many respects, destructive of the other set, it is at once apparent that the Finance Minister has a real problem on his hands in endeavoring to steer a straight course for the ship of state. He cannot please all and it would be worse than useless to make the attempt.

At the same time it must be recognized, and it is generally recognized, that Canada cannot go on indefinitely without making a serious attempt to pay off its huge national debt which now rears like the dead weight of a wet blanket on the country, depressing industry, creating unemployment, and retarding development. With the exception of the demand for the reduction of the tariff, in regard to which there is a sharp difference of opinion, people as a whole would welcome and support all the demands enumerated in the first list mentioned above.

But how is taxation to be reduced in any effective degree and at the same time substantial payments made on account of the national debt? How are freight rates to be lowered and at the same time the deficit on the National Railways wiped out? How can national expenditures be substantially decreased and at the same time policies inaugurated for the development of natural resources, the construction of railways and other public works, and work created so as to do away with unemployment?

When urging reductions in taxation it must always be born in mind that to meet interest charges on our war debt Canada requires to raise a larger sum annually than the whole budget of the Dominion not so very many years ago. In addition many other millions are required annually to pay pensions and otherwise provide for disabled soldiers. Costs of government, like the cost of everything else, is greater today than was the case ten years ago.

Nevertheless, the picture is not as dark as it may at first glance appear. While Canada's import trade has fallen in the last year or two, with a consequent marked decline in Customs revenues, the export trade of the Dominion is steadily and even rapidly rising, which means that we are buying more at home and selling more abroad. In other words, Canada is becoming a more self-contained and self-supporting country, and this makes for national strength and future wealth and prosperity.

Unquestionably there are still many ways in which national expenditures can be reduced through the consolidation of government services, with consequent elimination of overlapping and duplication of services and much waste. The Civil Service at Ottawa is admittedly over-manned. In tackling this problem the Federal authorities may well take a leaf from the economy book of the Coolidge Administration at Washington.

The main lesson for the people of Canada to learn, however, is that for the time being they must forego those additional public works and services which can only be provided through large public expenditures. True, such constructive enterprises would provide temporary employment, but it would be only temporary, while the new debt thus created would not only defer the day of debt reduction but would increase the present high weight of that debt. Money should only be expended on revenue producing services which will carry their own interest charges and add something to the general revenue and advancement of the country.

There is need for economy everywhere, but there is still greater need for hard work on the part of each individual citizen, productive work that will result in still further increasing the export trade of the Dominion and provide increasing traffic for our railways. Instead of holding out for the last dollar in profits and wages, Canadian manufacturer and workman must be willing to accept a little less and give a full day's output in service and work. Only by so doing will conditions be developed which will mean more work, better pay, permanent development, and ability to carry and discharge our national obligations.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER: Fletcher's Castoria is especially prepared to relieve infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

### Spanish Women Seek Education

Work Much More Brilliant Than That Of Men

Spanish women, albeit slowly, are seeking higher education. During the academic year that ended in 1923 there were 263 female students at the institution as against 60 in 1917.

Pharmacy attracted 128 women, philosophy 105, science 78, medicine 46, and the law 8. They are good students, and their work is much more brilliant than that of the men, according to the university authorities.

### "DIAMOND DYES"

COLOR THINGS NEW

Beautiful home dyeing and tinting is guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

### Saskatchewan Golf Tourney

The Moose Jaw Golf Club executive has recommended to the provincial association the holding of the provincial tournament at Moose Jaw in the week of August 10, and that F. R. Naeson, of Moose Jaw, be the tournament secretary.

### UNSURPASSED FOR CHILDHOOD ALMENTS

Mrs. Howard King, R.R. No. 5, Truro, N.S., says:—"I am the mother of four children and have always used Baby's Own Tablets whenever any of them needed a medicine, and I can recommend the Tablets as being unsurpassed for childhood ailments. Thousands of other mothers agree with Mrs. King as to the merits of the Tablets. There are thousands of homes throughout Canada where the Tablets are always kept on hand in readiness for the least sign of any of the minor ailments which afflict little ones. Baby's Own Tablets never fail to regulate the stomach and bowels, thus they banish constipation and indigestion; break up colds and simple fevers; relieve colic and soothe the baby through that dreaded teething period in safety. The Tablets never do harm—always good—as they are guaranteed absolutely free from any injurious drugs. They are sold by mail—always good—by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

### Claim Medical Discovery

Dr. Martha Jones, research associate of the department of pediatrics at the University of California Medical School, claims the discovery of a cure for rickets. It consists of giving hydrochloric acid in small amounts in a patient's milk. The discovery resulted from finding that acid reduced the malady in puppies.

The case with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

### Many Canadians Return

Coming Back From the United States in Large Numbers

Immigration to Canada, during February, amounted to 2,210, an increase of 203 over the previous month, according to a statement issued by the department of immigration and colonization. Of the February arrivals, 945 were British, 800 from the United States and 868 from other countries. Canadians returning from the States after having been in that country for six months or over, and declaring their intention of remaining in Canada permanently, totalled 2,012. Since the beginning of the fiscal year the number of such returning Canadians is 41,044.

### Japan Stop Work

Japan has suspended the work begun on the electrification of about 440 miles of government-owned railways.

For Sore Feet—Minard's Liniment

N. N. J. 1572

### SUNDAY SCHOOL LESSON

APRIL 19

LIFE IN THE EARLY CHURCH

Golden Text: The multitude of them that believed were of one heart and soul. Acts 4:22.  
Lesson: Acts 4:1 to 5:11.  
Devotional Reading: Psalm 133.

The Text Explained and Illuminated  
Christian Unity, Acts 4:25-26. There was the greatest unity of feeling and purpose in the early Christian Church; as the proverbial expression has it, they were of one heart and soul.

"My own idea of a church is a great religious democracy, where the rich and the poor, the educated and the ignorant, the cultured and all others, gather to worship and commune with a Being so far exalted as to make relative human conditions unmentionable, unthinkable, and unnoticeable in his presence" (Leslie M. Shaw).

Settled on the northwestern shore of the Dead Sea, and living in scattered communities throughout Palestine at this time, were the Essenes, a sect that literally had all things common. Each one deposited whatever he possessed in a general treasury, of which several managers took charge, supplying from it the needs of all. In Egypt there was a Jewish sect called the Therapeutae whose members gave away all their possessions when they joined the order, and there was among them no distinction of rich or poor. It is said of the disciples at Jerusalem that "not one of them said that aught of the things which he possessed was his own; but they had all things common." With them, however, the giving up of possessions was voluntary (5:4)—each one regarded his property as held in trust for others. Property was sold and the money placed at the disposal of the apostles only as some rich and generous member saw there was need.

### You Have to Know How

A Manitoba farmer thought 25 head of feeder steers ten months ago. He sold them the other day after spending \$25 per head on feed, at a net profit of \$28 per head. The farmer who doesn't know how will say this was a case of luck. The truth probably is that the Manitoba farmer won out in a bad cattle year because he knew how to buy in the first place and how to feed and finish cattle in the second place. Not every farmer does—Calgary Herald.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

### Sixty British Farmers in Alberta

Young British boys who have been leaving farming at the Vermilion agricultural school, have been sent out to various farms in Alberta for practical experience.

### Minard's Liniment for Colds

Twenty-six per cent. of the painful workers in Philadelphia in 1920 were women.

## FOR Rheumatism

Proved safe by millions and prescribed by physicians for

Rheumatism Colds  
Headache Pain  
Neuralgia Toothache  
Lumbago Neuritis

**Safe**

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monheim-am-Elbe. Bayer's Aspirin is the only Aspirin in the world which is guaranteed to be pure and free from all harmful substances. Bayer's Aspirin is the only Aspirin in the world which is guaranteed to be pure and free from all harmful substances.

### Dead Germans Found In Scuttled Destroyer

Officers and Sailors Evidently Not Warned When Fleet Was Sunk

Workmen engaged in breaking up the scuttled German destroyer, beached in Mill Bay, Scapa Flow, have discovered under the mass of wood, which completely concealed them, the bodies of five German officers and sailors. They evidently were not warned that the fleet was sunk by the German crews.

### Nothing Else Builds Him Up So Much

So Says Mr. Allan McMullin of Dodd's Kidney Pills

Novus Scotia Man Was Unable to Move In His Bed, But Dodd's Kidney Pills Brought Him Relief.

Upper Grand Mills, N.B.—(Special).—"I am more than thankful to Dodd's Kidney Pills, because they have helped me so much," states Mr. McMullin, a well known and highly respected resident of this place. "I know I could not live without them. Before I started taking Dodd's Kidney Pills I was so bad I could not move in my bed. I was suffering with rheumatism, lumbago and pains in my back. I could not rest day or night. I had to turn myself in bed with straps. After the first box of Dodd's Kidney Pills I noticed a great improvement. I am sorry I did not start taking them ten years ago. I will never be without them if I can get them. I cannot find anything which builds me up so much."

It is statements like the above that have made Dodd's Kidney Pills a household remedy throughout Canada.

### Reaps Good Returns

J. H. Anderson, a farmer near McGrath, Alberta, reports that his income from a forty-acre field of wheat in the 1924 season was \$2,000, or \$50 an acre.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unwholesome, and will be stunted in his growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done with out difficulty.

### Love and Not Fear

The Bishop of London says that it would be almost comic now to hear a sermon about hell. Which means that the basis of religion is at last being interpreted as love and not fear.

## Quote Numerous Cases Of Farmers Returning To Canada From The United States

Additional examples of farmers returning to Canada from the United States, for the reason that the Dominion offers better opportunities for success, are quoted by the department of immigration and colonization. Within the past few weeks the agent of the department at Detroit has reported the following instances:

Arthur Stevenson, an Englishman, with his wife and family, of Ypsilanti, Michigan, farmed nearly 11 years at Lunenburg, Saskatchewan. A few months ago Mr. Stevenson went to the States with the idea that he could make more money there, but he has been disappointed in this respect. He and his family are now satisfied that farming is the best and most profitable life, and are returning to Lunenburg where they will farm again. Stevenson came to Canada from England 18 years ago.

Walter MacDonell, of Detroit, a native of the United States, farmed in Saskatchewan for seven years. About a year ago he sold out and went back to the States where he has been working in factories. "I am tired of the factories and want to get back on my own," said Mr. MacDonell, who is leaving to take up land in Alberta.

F. W. Greig went to the United States four years ago after farming with his father at Prince Albert, Sask. He failed to find the attractive opportunities that he expected in the factories where he worked, and has made arrangement to return with his wife and two daughters to take up a farm near relatives in the Prince Albert district.

Willis Mitchell, a native son of Ontario, went to the States seven years ago, but has not found conditions there to his liking, so he is going to farm. He is joining friends at Grand Prairie, who are doing well, and he intends to farm there.

W. F. McCutcheon farmed for six years at Lacombe, Alberta. In 1921 he went to Chicago. He has now decided he could do better on the farm and is returning to his former place which, during his absence, has been kept going by his brother.

The Canadian Government agent at Great Falls, Montana, reports the two following examples:

George W. Hodges, Chateau, Montana, is 51 years of age and Canadian born. Mr. Hodges moved from Bruce County, Ontario, and homesteaded at Clareholm, Alberta, for seven years. On his farm he grew forty to fifty bushels of wheat of the acre and about eighty bushels of oats. In 1912 he sold out for over \$12,000 in cash, which was made out of a quarter section in seven years. The following year he went to Montana, to Teton County, where he bought another quarter section and bought another half section and put in from 400 to 500 acres in grain every year. "I have given Montana a fair trial for farming," he said, "I have made it through the dry years and have crops but lost everything I had." He has now rented a place at Speers, Saskatchewan, to commence farming there over again as he says he has learned from experience it is hard to beat the opportunities which lie in Western Canada.

In 1902, Mr. John C. Brown, now of Great Falls, Montana, went to Alberta. He took up farming at Ribault, in the Cardston district. He had good crops every year during the period he lived there. He found the soil very fertile, the climate very healthy, the law of the best, and the schools good. "He has seen 62 bushels of No. 1 Northern per acre by best stubbling it in." Mr. Brown sold out in 1918 and went to Great Falls, Montana. He has now decided to return to Canada as he considers it the best farming country at all odds.

### Butter Production Increases

Production of creamery butter in Saskatchewan during February totaled 612,820 pounds, as compared with 551,514 pounds during February, 1924, an increase of 61,306 pounds or 11.1 per cent. The average daily production was 21,000 pounds and the increase over the corresponding period of last year would have been greater if there had been 29 days in February this year as there was last.

W. N. W. 1925

## Determined To Work

Joseph F. E. Bailey, 17-year-old grandson of the late Lord Glanville, has come to Canada determined to work. Recently he made several efforts to escape the treadmill of his class and make his way as a worker in England. Last January he disappeared from Bray Court College at Maidenhead, England, wearing a false mustache and horned rimmed spectacles as a disguise. His family discovered his working as a laborer in a cork factory, but the glided life is not for him. He is seen at St. John, N.B., waiting for a Canadian Pacific train to whisk him to parts unknown in the west.

### Garnet Wheat

May Possibly Replace Famous Marquis

"The production of Garnet wheat may possibly in the near future, replace the famous Marquis wheat," L. H. Newman, Dominion cerealist, experimental farms, told the agricultural committee of the House of Commons recently. Its capabilities of high production in seasons of drought, and to ripen earlier than the Marquis, even in wet weather, thereby escaping the possibilities of rust and frost, are valuable factors in its favor. It was hoped that the growing of Garnet wheat would extend the wheat-growing area many miles further north.

### Timber For Admiralty

Fifty-one Tons of Squared Timber Shipped From Ottawa

Part of what is one of the greatest shipments of lumber ever handled by rail, unique in that it is the greatest movement of squared timber since the days when it was floated in rafts to the ports, left Ottawa recently for England on a train of fifty-one cars. The timber was white pine, cut from the virgin growth in the woods about 150 miles northeast of Ottawa. J. R. Booth, the veteran lumberman, who made the shipment, will be 98 years of age this year, attended to all details of this contract with the British admiralty.

### Live Cattle Exports

Increase in Number of Live Cattle Shipped to the United Kingdom

An increase of approximately 50 per cent has taken place in the live cattle exports to the United Kingdom in the period January 1 to March 19, 1925, as compared with the corresponding period last year. Up to March 19 the exports of cattle in 1925 were 14,862 head, as compared with 10,521 in the same period in 1924 and 9,511 in 1923.

## Covering Of Western Provinces With A Forest Growth Is A Possibility Of The Future

### Livestock Market Situation

Increased Shipments Indicate a Better Condition of Trade

The monthly review for February of the livestock market by the Dominion livestock branch showed an increased volume of through-billing, indicating a better condition of trade between the east and west now as compared with the same period of last year.

The comparative standing of our overseas export trade is strongly in favor so far in this year's business. It would appear that all available ocean space is being well taken care of and every boat should carry its maximum number.

A feature of the market was the development of a keen demand for good feeder cattle on both domestic and export account. Common sorts of steers were shown to be more or less an unsaleable commodity.

Compared with prices a year ago, hogs showed an advance of from \$3 to \$4 per hundred, equal to at least \$5.76 to \$7.60 per head. Toronto showed a \$12.92 per hundred advance on select, Montreal \$11.40, Calgary \$11.32, and Edmonton \$11.42. The market promises strength for some time. Farmers are advised to market their hogs at finished weight so as to obtain the extra return for select bacon stock.

An English cattle dealer reports that recently he received 8 cents a pound less for Canadian hides than for English of similar quality on account of brand marks.

### Free Grant Homesteads

44,800 Acres Taken Up in Western Canada During January

During the month of January, 223 free grant homesteads were taken up in Western Canada, an increase of 18 over the same month last year. During the same month, 47 soldier grant estates were filed. Of the homesteads, 35 were taken up in Manitoba, 117 in Saskatchewan, 73 in Alberta, and 5 in British Columbia. The homesteads and soldier grants combined, represent approximately 41,800 acres.

### Seed Cleaning Plant

Alberta Seed Growers Association Doing Good Work

The seed cleaning plant operated by the Alberta department of agriculture and the Alberta Seed Growers' Association handled, up to the beginning of March, a total of over 52,000 bushels of registered seed, according to a report of the field crops commissioner. Shipments have been made to a large number of points in the western provinces, as well as to the United States.

### Best Customer For Radios

Canada is the best customer the United States has for her radio manufacturers. The result of a recent survey of foreign markets shows that Canadians imported radio apparatus from this country during 1924 to the value of \$2,413,687, which is by far the largest trade of any country.

Character enables a man to stand alone, but it is reputation that enables him to get a loan.

A little group of Aspen Poplars in a field or by the roadside, by the railway track or on the open prairie, where did they come from? How did they get here and why? They are only about two to three feet high and most assuredly they were not there three or four years ago. What is its purpose in history?

Its purpose is mighty significant for it is no less than the covering of the whole prairie with a dense forest. What? That little patch a few feet across cover hundreds of miles of prairie? Absurd!

No, not absurd, for a similar little patch together with thousands more like it have already treed over hundreds of miles that were entirely bare prairie when the settlers came to the country and looked to them as if the last thing you would find growing there would be trees.

Look at it, dig it all up carefully without breaking the roots and you will find that the twenty or thirty little tree stems of all sizes that constitute the group are all connected one to another by their roots. The one root system is common to all, that is the roots spread out from a common centre and they spread out on a succession of little treelets into the air. Do you see how the greatest trees are in the middle and that they grade down to the smallest on the outside? Look in the grass around them and you will see the same arrangement beginning. Another year the clump will be a foot wider all around and covering almost twice the area.

Here is another similar clump 100 feet away. It is just about the same size, but you see the same arrangement of tall ones in the middle grading down to tiny ones at the margin. In a few years these two little clumps will have spread so much they will have filled the space between them and we have another tree island on the prairie and a further spread of the park country.

That is how it goes on and has been doing so for centuries. A little seed blown to rest in a favorable spot, perhaps miles away, lands in a moist place kept moist, perhaps, by a snow bank drifted there over winter. The seed germinates, sends up a little sprout and you have the beginning of a little forest which has potentialities to clothe the whole prairie in time simply by spreading its roots, sending up more shoots and shedding more seed. All the great Aspen forest of the north and foothills has spread in just this way. The beautiful park country around the fringes of the prairie is simply a stage in the same development. And the clumps suddenly appearing in odd out of the way places where there are just the forward stages of the line of the great army of trees that will slowly but surely follow after.

The reason this hasn't taken place long ago is because the prairie fires used to be so frequent and any little forest clump that got started was burned up. Our road allowances and farm lands are excellent fireguards and the little trees get a chance to make themselves apparent. The beautiful treelined farms of Manitoba, Eastern and Northern Saskatchewan and Northern Alberta were bare prairie in the memory of men still living, and are just a forest of what the rest of the country would be like if left alone.

The prairie is a natural tree country. There's no doubt about it, and it is one of the most encouraging facts the farmers can bear in mind, for it carries on his planning in accordance with Nature's ways he cannot but be successful. The little natural tree clump is most significant and most encouraging.

### Heavy Grain Shipments

Four points on the Leithridge division of the Canadian Pacific Railway shipped more than a million bushels of grain each in the shipping season 1924-25. These points were Vulcan with 1,185,600 bushels, High River with 1,025,000 bushels, Nanaimo with 1,025,000 bushels and Cardston with 1,000,800 bushels.

Use a dry hard piece of white soap to rub over material for which you want to draw threads for hemstitching. This will make the threads stick out much easier.

## Bishop Of Namur To Prepare 1926 Congress

Monsignor Heylen, Bishop of Namur and permanent president of the Eucharist Congress was a prominent spokesman in the Canadian Eucharist Congress. Accompanied by Comte D'Yanville, general secretary for the Congress and the Rev. E. A. Bostma, his private secretary, he was enroute to Chicago where he will formulate plans for the Congress to be held there in June, 1926. Photographed at Windsor Station, Montreal, from left to right, Comte D'Yanville, Monsignor Heylen, J. Van Rikstael, Belgian Consul at Montreal, Rev. E. A. Bostma.

## A Romance of the Spanish Main CAPTAIN BLOOD by RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini.  
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

### SYNOPSIS

Captain Peter Blood, buccaner, commands a fleet of pirates. The Spanish ship *Milagrosa* sinks the *Royal Mary*, and Arabella Bishop, with whom Blood is in love, and Lord Wade, sent to the West Indies to make peace with piracy, are prisoners. Captain Blood's flagship, the *Arabella*, sails into the *Milagrosa* and her sister ship, the *Hidalgo*, and engages them in battle.

### CHAPTER XVI.—Continued

Speechless, livid of face, his mouth distorted and his breathing labored, Don Miguel de Espinosa uttered an inarticulate cry of rage, and his hand swept to his sword. But even as his fingers closed upon the hilt the other's closed upon his wrist to arrest his action.

"What do you intend by me?" the Spaniard inquired at last, his voice hoarse. Captain Blood shrugged. The firm lips smiled a little. "All that I intend has been already accomplished. Your boats are being launched. You are at liberty to embark in this ship. Yonder are the shores of Hispaniola. Get you home, to Spain, Don Miguel, and to concerns that you understand better than this trade of the sea."

Lord Julian stood forward to meet him.

"Ye don't mean, sir, that you'll let that Spaniard scoundrel go free?" he cried.

"And who the devil may you be?" Captain Blood asked, with a marked Irish accent.

"I am Lord Julian Wade."

"Are you, indeed?" "Perhaps," perhaps you'll explain what the plague you're doing aboard this ship?"

Lord Julian controlled himself to afford the desired explanation. "He did so shortly and impatiently."

"He took you prisoner, did he—along with Miss Bishop there?"

"You are acquainted with Miss Bishop?" cried his lordship, passing from surprise to surprise.

But this mannerless fellow had stepped past him, and was making a leg to the lady, who on her side remained unresponsive and forbidding to the point of scorn. Observing this, he turned to answer Lord Julian's question.

"It had that honor once," said he. "But it seems that Miss Bishop has a shorter memory."

## ASK THIS HALIFAX NURSE

She Is Willing to Answer Letters from Women Asking About Lydia E. Pinkham's Vegetable Compound

Halifax, Nova Scotia.—"I am a maternity nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were childless, also to women who need a good tonic. I am English and my husband is American, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy of two of your little books on women's ailments. I have one which I keep to hand. I will willingly answer letters from women asking about the Vegetable Compound."—Mrs. S. M. COLMAN, 24 Uniacke Street, Halifax, Nova Scotia.

### Could Not Sleep Nights

Dublin, Ontario.—"I was weak and irregular, with pains and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I wanted to get better. I have got good results from it and I feel a lot stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others."—Mrs. JAMES RACRO, Box 12, Dublin, Ontario.

W. N. U. 1572

His lips were twisted into a wry smile, and there was pain in the blue eyes that gleamed so vividly under his black brows, pain blending with the mockery of his voice. But of all this it was the mockery alone that was perceived by Miss Bishop; she reentered it.

"I do not number thieves and pirates among my acquaintances, Captain Blood," said she; whereupon his lordship exploded in excitement.

"Captain Blood!" he cried. "Are you Captain Blood?"

"If you'll excuse Miss Bishop aboard my ship, I shall be obliged to you," he heard Blood's voice in level tones. "I beg that you'll make haste. We are about to scuttle this hulk."

### CHAPTER XVII.

#### Thief and Pirate

Captain Blood paced the poop of his ship alone in the tepid dusk and the growing golden radiance of the great poop lantern in which a seaman had just lighted the three lamps. About him all was peace. The signs of the day's battle had been effaced. A group of men squatting about the main hatch were drowsily chanting, their hardened natures softened, perhaps, by the calm and beauty of the night. Captain Blood chafed not hear them; he did not hear anything save the echo of those cruel words which had dubbed him thief and pirate!

Thief and pirate! She had summed him up, convicted him and sentenced him in that one phrase. He was thief and pirate in her eyes; nothing more, nothing less. What, then, was she? What are those who have no charity? He asked the stars. Thief and pirate she had branded him. She should be justified. Thief and pirate should be proved henceforth; no more nor less; as lawless, as remorseless, as all those others who had deserved those names. She had shown him clearly by which world he belonged. Let him now justify her. She was aboard his ship, in his power, and he desired her.

He laughed softly, jeeringly, as he leaned on the taffrail, looking down at the phosphorescent gleam in the ship's wake, and his own laughter startled him by its evil note. He checked suddenly, and shivered. A sob broke from him to end that ribald burst of mirth. He took his face in his hands and found a chill moisture on his brow.

Meanwhile Lord Julian was engaged in solving the curious problem that had so completely escaped the buccaner. He was spurred to it by vague stirrings of jealousy. "He wondered what precisely might have been her earlier relations with Captain Blood. He had observed, for instance, that Blood's ship was named the *Arabella*, and he knew that *Arabella* was Miss Bishop's name. And he had observed all the odd particulars of the meeting of Captain Blood and Miss Bishop, and the curious change that meeting had wrought in each.

The lady had been monstrously unkind to the Captain. It was a very foolish attitude for a lady in her circumstances to adopt towards a man in Blood's; and his lordship could not imagine Miss Bishop as normally foolish. Yet, in spite of her rudeness, in spite of the fact that she "spat the name of a man whom Blood must regard as his enemy, Miss Bishop and his lordship had been shown the utmost consideration aboard the Captain's ship. They were given the freedom of the great cabin, and they had sat down to table with Pitt, the master, and Wolverstone, who was Blood's lieutenant, both of whom had shown them the utmost courtesy. Also there was the fact that Blood, himself, had kept almost studiously from intruding upon them.

(To be continued)

Those who say the world isn't making progress are not.

## OUR CROSSWORD PUZZLE

Don't pass this one without working it out. It is one of those puzzles which look easy in the solution, but when it comes to working them out—well, that's another matter.

### Horizontal

- Mother.
- Used by artists.
- Islands in Southwest Pacific.
- Assemblage of persons or animals.
- A conjunction.
- Native mineral.
- Contraction of a Jewish name.
- X. T. P.
- One (Fr. Fem.).
- Condition of bodily rest.
- To entangle (archaic).
- Part of spectacles.
- A pronoun.
- B. A. L. A.
- Fruit of North Africa.
- Rip.
- Exist.
- Predix.
- Child (in contempt).
- Covered with ink.
- Color.
- Pronoun (poss. form).
- Bong given by one person.
- Opposite to cold.
- Kind of thread used in hosiery.
- Egg of a small insect.
- River in Siberia.
- River in Scotland.
- To commit error.
- Point of compass.

### Vertical

- Adhesive substance secreted by most plants.
- City in Massachusetts.
- Melodies.
- Fragrant oil from rose petals.
- River in France.
- Form of verb "to be."
- Also.
- Part of head (pl.).
- On top.
- Anger.
- Negative.
- Sum.
- The eternal part of man (pl.).
- Part of a flower.
- Otherwise.
- To come together.
- Flair.
- Exclamation.
- Sailor (nickname).
- Cavalry sword.
- A long heaped up mass of any substance (pl.).
- A drink.
- Contraction of "even."
- To detain.
- Conjunction.
- Slim.
- Small island.
- Yonder (abbr.).

- A kind of pole (Indian).
- Parts of ears.
- Form of verb "to be."
- Large ocean vessel.
- Not short.
- Formerly.
- Loud noise.
- Rodent.
- In like manner.
- The (Fr. fem.).

## WHEN THE SYSTEM IS ALL RUN DOWN

Often All That Is Needed Is a Tonic to Build Up the Blood

There are many women who have been invalids or semi-invalids so long that they accept their condition as a life burden. They have endured broken sleep, stomach trouble, nervousness, headaches and weakness so long that they have given up hope of enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would do wonders. To all run-down, nervous people the experience of Mrs. H. J. Cameron, Waterville, N.S., will be of deep interest. She says:—"About two years ago I was in a miserable run-down condition. I was unable to do my work, my head ached day and night, my nerves were all unstrung, and for three weeks I could not eat or sleep. I then decided to give Dr. Williams' Pink Pills a trial and got six boxes. By the time I had used half of them I felt much better, and when I had taken the six boxes I was as well as ever. I could work all day and not feel tired and have been strong and healthy ever since. I have never taken any medicine that did me so much good and will always highly recommend Dr. Williams' Pink Pills. You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Encourage Home Industries  
The youthful Amir of Afghanistan encourages home industries. If he sees an Afghan wearing foreign-made clothes he slips up behind and slashes the clothes apart with a penknife, kept sharp for that purpose.

### STIFFNESS

Rub in Minard's with the finger tips. It penetrates and heals. Removes inflammation. A remedy for every pain.

## EARLY ELECTION IS PENDING ON THE BUDGET VOTE

Ottawa.—Indications point to the debate being continued for a week or 10 days when the house convenes after the Easter recess. The desire of the government to expedite business has caused both Conservatives and Progressives to take steps insuring that there will be no undue speed. As a consequence, the accomplishments to date are much less than was expected a month ago.

The character of the budget vote will be a large determining factor in the election question. If the government has a substantial majority on this most vital item of policy, it will be argued that no warrant exists for an early dissolution. If its majority be narrow, by an adverse combination of widely divergent elements, the influence will be to accelerate an appeal to the country. Present indications being that the majority will be small, the prospects of an election this year are increased in proportion. The relative blockade now in progress is said by Conservatives to be dictated by the desire to have the session continue till the Saskatchewan and Maritime province elections are over. At least, in the latter case, they will be in June.

### Russia Would Raise Loan

Most Recognize Debts Before Any Proposal Is Considered  
London.—Representatives of Russian and British banks, the Daily Mail says, are conferring with the knowledge of the British treasury, in an effort to ascertain a basis on which Russia would be able to raise a loan in London. The Russians are understood to have been notified that English financial circles would not consider any proposal for a loan until Russia would be able to recognize her debts.

#### Inspect Mental Hospitals

Edmonton.—Hon. George Hoadley, minister of agriculture, announced in the legislature that he had under consideration the appointment of a committee of 10 persons, who would visit the mental hospitals of the province every month to inquire into any complaints and to determine whether or not the patients are being given proper treatment.

## Phantom Airship To Revolutionize Warfare

London.—British airmen have been startled by the report that Anthony H. G. Fokker, the Dutch designer, has developed an aeroplane which will carry bombs at a speed of 180 miles an hour. This phantom ship is said to be equipped with motors developing 1,000 horsepower. The new Fokker model is capable of climbing six miles into the sky, so that it would become virtually invisible to anti-aircraft gunners.

## Makes Parachute Jump From Moving Plane

Demonstration Given in B.C. By Flying Officer of High River, Alta.  
Vancouver.—The first parachute jump from a moving airplane to be made in Western Canada took place at the Jericho Beach station of the Royal Canadian Air Force, when N. Carter, flying officer of the High River, Alta., station, gave a demonstration to the officers who are in training here. Packed on the wing of a seaplane, which was flying 800 feet over the grounds of the Jericho Golf Club, Carter allowed the small parachute which guides the bigger one to a perpendicular position, to flutter out. Then he pulled the release cord, and the 24-foot expansion of silk pulled open in the breeze. The airman was pulled from the plane with a jerk. He landed on the fairway with a bump, but unharmed.

## Earl of Balfour Reaches Nazareth

British Statesman Received at Settlement With High Honors  
Nazareth, Palestine.—The Earl of Balfour, who came to Palestine to dedicate the new Hebrew university, arrived here somewhat worn and fatigued, after a strenuous day in which he had visited the Jewish settlements of Nablus and Balfour, lying in the plains of Jezreel. At Balfour the British statesman was received with the highest honors, the Jews can pay an illustrious visitor, a scroll of the law being carried before him under a canopy, and bread and salt placed for him on a table. The ceremony took on the nature of a formal dedication of the settlement. Brilliant weather favored the tour of the distinguished guest.

French Consulate At Vancouver  
Vancouver.—The French government has decided to re-open the consulate here which has been closed since 1907. It is announced. The new consul will be P. St. Julien, who has been in charge of the French consulate at Capetown, South Africa, since 1922. Since 1907, the Vancouver office has been operated through the consul general at Montreal.

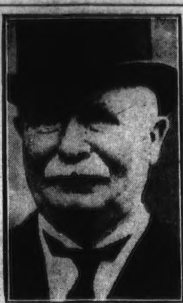

Race Track Restrictions  
Winnipeg.—Restriction in the number of race tracks in Manitoba is sought in a bill to be introduced in the legislature by W. D. Bayley, independent, Assiniboia. Mr. Bayley, in giving notice of the bill, stated that it was not intended to eliminate race tracks, but to end the evident exploitation of race tracks as commercial enterprises by unreliable promoters.

Chinese For Wembley  
Victoria, B.C.—In picturesque Mandarin costume, Sir Robert Ho Tung, member of the Hong Kong legislative council, and representative of Hong Kong at the Wembley exhibition, arrived from China on board the liner Empress of Canada, enroute to London. "I am satisfied that the Wembley exhibition will again be a signal success," said Sir Robert.

Duc de Nemours Visits Calgary  
Calgary.—Prince Charles, Philippe d'Orléans, who wishes to be known simply as the Duc de Nemours, arrived in Calgary in the course of his journey through Western Canada, which he will conclude by a visit to the ranch of Lord Rodney, at Fort Saskatchewan, where he will make a study of farming. He may buy a farm but not now.

Germany Is Paying  
Berlin.—Germany paid 91,691,000 marks under the Dawes plan during March, Great Britain receiving 26,600,000 and France 27,900,000.

## Is Now Convalescent

PREMIER W. F. MASSEY of New Zealand, who is reported to be recovering from his recent critical illness.

## Flight Of Dirigible Successful

Great Britain's R-33 Answered Well to All Tests  
London.—Great Britain's airship, R-33, carried out an experimental flight one night recently, starting from the Farnham airfield at 7 p.m., and not returning to her mooring mast until almost noon the next day. Commanded by Major Scott, the R-33 took a leisurely flight southward in the evening, obtaining data for the construction of the new airship R-101. Major Scott sent a wireless to the airship that the ship was answering well to every test.

About 1 o'clock in the morning the commandant brought the big dirigible over London and gave live travellers along the city a good view of her in the moonlight, the spectacle recalling to many the war-time days of Zeppelin raiders.

## Plenty Of Men Available At Coast

No Shortage of Help For Alberta Farmers  
Calgary.—Plenty of men will be available from the coast to take care of the demand for farm lands in the southern part of the province, according to officials of the Calgary office of the Alberta Government employment service.

"Farm hands will be imported in accordance with the demand in the district, and there is little likelihood of a serious shortage developing here with a big supply to draw from at the coast," remarked William Carhill, superintendent of Calgary bureau.

Harvest Operations Near Brandon  
Brandon.—Harvest operations have commenced in Brandon district when J. Couling started threshing oats, and will later put some barley through the separator. Another farmer is also threshing sweet clover. This grain has all been in the stock in the field during the winter and farmers are greatly interested in the outcome of the threshing operations which are very unusual here at this season.

## What Pretty Girl Did for Sick Stomach

Miss E. Rish of Brooklyn, N. Y., says: "I don't know what the cause was, but every few days my stomach would feel all bloated up with gas, my appetite was poor and I felt sick to my stomach—I say nothing of headaches. I never thought of using Carter's Little Liver Pills until nothing seemed to help. After taking Carter's I felt relieved at once—and now as soon as my stomach talks back I answer with Carter's and have the best world." Recommended for sale by all drug stores. 25c.

## Plans For British North Pole Expedition

London.—Giving details of the plans for the British North Pole aerial expedition on which he intends to start next month, Greitir Alcock, a young Irishman, says today in the Daily Express that the final dash to the Pole will be made in a small non-right airship and not an airplane. The ship will be 150 feet long and similar to those used for patrolling the English Channel during the war, but especially designed to withstand the exceptional polar conditions. The airship will carry four passengers, a thirty-day food supply, special cooking stores, and spare gasoline as ballast.

## Assistance For Rural Schools In Alberta

Government Measures Will Make It Easier For Poorer Sections  
Edmonton.—A bill providing for equalization of grants to rural schools is being introduced in the Alberta Legislature by Hon. Perrin Baker, minister of education. At the present time, many of the rural schools of the province are unable to carry on for more than three months of the year, while others, which are in a better financial condition, are able to meet all the requirements with little difficulty.

The measure suggests that a form of educational tax be imposed on all rural sections of the province alike, regardless of whether the land is within a school district or not. At present, there is a tax of three mills on land outside of organized school districts, and the measure would extend this to all lands in rural districts. The tax revenue thus collected would be redistributed to the various school teachers on the basis of \$500 per teacher, and as a result, practically the same basis. The school districts that are well off financially, will, in a measure, help to pay for the educational costs of those that are unable to carry on successfully if entirely dependent on their own resources.

## To Help Aged Prima Donna

Proposed Fund on Behalf of Madame Albani, Famous Canadian Singer  
Montreal.—La Presse, local French language newspaper, states that Premier Mackenzie King has invited that journal to organize a subscription on behalf of Madame Albani, the aged prima donna, whose musical successes in the latter part of the last century were world-wide. Madame Albani, who was Marie Emma Lejeune, born Chambly, Quebec, in 1852, is living in straitened circumstances in London. The newspaper says: "His Majesty King George V. has accorded his gracious patronage to the project of aiding the great artist, who was aided by the masters of her time 'the spirit of the oratorio'."

Will See Over Radio  
Baltimore, Md.—Invention of a device known as "the prismatic ring" will enable radio fans to see the next Olympic games, as well as hear the cheering. It is predicted in a report to the American Chemical Society by the inventor, C. Francis Jenkins, of Washington, D.C.

He also promises that the "stay at homes" may see football or baseball games, or regatta or baby parades, while these things are actually happening.

Doukhobors Must Obey Law  
Victoria.—"We have a law and it must be obeyed," said Attorney-General Manson in respect to the Doukhobog situation in Grand Forks. In spite of all threats made by the Doukhobors, the government proposed to enforce it. The provincial police are making arrangements to send cannon men to Grand Forks, if the situation makes it necessary.

Hindenburg Refuses Nomination  
Berlin.—Field Marshal von Hindenburg's definite "no" was spoken by his Berlin representative, Count Von Wedel, and the Nationalist hopes that the former leader of Germany's army would be the presidential candidate of the Monarchists in the second election battle, April 26, were dashed.

## NEXT EMPIRE CONFERENCE MAY BE HELD HERE

London.—The next imperial conference may be held in Ottawa, in 1927. This suggestion is being strongly urged upon the government, and is very popular among members of parliament, but the permanent officials who have to pass upon all such propositions, and naturally lean toward the conservative side of all questions, point out that before any decision can be made all the Dominions would have to be consulted.

The Baldwin Government is very favorable to the suggestion that alternative conferences should be held in one of the Dominions, and naturally, Canada has the preference, because of its nearness to the mother country, from point of distance and time of travel. Naturally, the other Dominions have to be consulted, and it will take some time to get the views of Australia, New Zealand and South Africa on the question.

## To Aid Settlers

Government Loans For Settlers in Lethbridge Northern Irrigation District

Edmonton.—Settlers who take up land in the Lethbridge northern irrigation district in future will be provided with financial assistance in the way of loans for the purchase of livestock and buildings or building material and, in addition, will not be required to make water rights payments for the first three years, according to a measure introduced in the legislature by Hon. V. Smith, minister of railways. Present residents are also given certain assistance such as an extension of the period of payment.

The measure is purely a colonization scheme with the object of settling the northern irrigation district so that the province will be able to get a return on its guarantee of some \$5,400,000 in this project.

## Urges Preparation For War

Conflict May Come at Any Time Says Russian General

Moscow.—General Frunze, commander of war, said he believed the eastern countries were too occupied with economic affairs to engage in immediate warfare, but he did not rule out the possibility of attack from them in the future.

"The international situation," he said, "is such that a conflict may arise at any moment; therefore, we must go on preparing the forces of war."

Wholesome Cleaning Refreshing

Piracy in China  
London.—In a dispatch to the Daily Mail from Shanghai, dealing with the sale of the Dollar Steamship Company interests on the Yangtze River, the correspondent asserts that the sale was made owing to the difficulty of operation due to pirates and consequent military interference.

Pass it around after every meal. Give the family the benefit of its aid to digestion. Cleans teeth too. Keep it always in the house. "Costs little—helps much"

day at 7:30 p.m.

## DOBBIN ON SNOWSHOES IN ROCKIES

It looks funny and it sounds even  
funnier, but after all why not? It is  
bad enough to carry 140 pounds on  
two feet in deep snow. Figure for  
yourself what it would be like to  
quintuple the poundage even though  
it is distributed over double the  
human allowance of footage.

This genial idea was put into  
practice by Walter J. Nixon, member  
of the Council of the Trail Riders of  
the Canadian Rockies and it was found  
to work out quite well. In the particu-  
lar instance shown in the cuts, the  
task was to break the trail through  
deep snows to the Phoenix mine in  
British Columbia and this onerous  
task would have been impossible  
without some such device as the one  
depicted.

The idea of the Trail Riders Order  
came into being one rainy day last  
summer on a bed of white heather  
under a tent in the Canadian Rockies  
about 7,000 feet above sea level.  
There were present or nearby about  
28 saddle or pack horses and 14 trail  
riders who had ridden or fished along  
the Kootenay from the Crossing to the  
river's unmapped source in War-  
field Basin and had landed on the  
plateau beside Tumbling Glacier at  
the head of the Wolverine Pass. It  
was there and then decided to form  
the Order and buttons were awarded  
to those who had travelled distances  
of the trail from 250 miles down to  
low as fifty miles. Among the

Taking heavy load to Phoenix Mine, Inset. Horse on snowshoes. Right Top, Country  
that Trail Riders Traverse.

2,500 mile button holders is Mr.  
Nixon.

The first Pow-Wow of the Order  
was held last summer in the Yoho  
Valley and with the co-operation of  
the Canadian Pacific Railway accom-  
modation at the Bungalow Camp at  
Takakaw Falls was supplemented  
with twenty Indian teepees and a  
large circular tent decorated as a  
Sun Dance Lodge. It was expected  
that 150 people would be present, but  
actually no fewer than 207 were  
counted at the inauguration. It was  
at this function that the bronze pla-  
que of Tom Wilson, one of the out-  
standing old-time guides of the Cana-  
dian Rockies, was unveiled.

The next Pow-Wow will be slated  
to take place early in August of this  
year beside Vapour Bungalow Camp

after a three day (45 mile) cross-  
country ride from Marble Canyon on  
the Banff-Windermere Road. The  
trail to be used calls at the Vermilion  
Paint Pots, climbs up Tumbling  
Creek to the Wolverine Plateau  
where it connects with a new trail  
over the High Alps east of Tiamet  
and Goodair, and after dropping down to  
Goodair Creek rises again alongside  
McArthur Pass to Lake O'Hara and  
so to Wapta. This route traverses  
some of the most spectacular scenery  
in the world.

Membership in the Order of the  
Trail Riders of the Canadian Rockies  
has increased greatly in the first year  
of its formation. At the August Pow-  
Wow there should be nearer a  
hundred than the 500 odd partici-  
pants in the function last year.

#### GENERAL NOTICES.

### Canadian National Railways

## Here and There

Under the Joint Canadian-British  
Government scheme, 8,000 families  
are being brought to Alberta this  
year and the first party of families  
will arrive in April. They will first  
be guaranteed employment and later  
will take up their own land.

Henry E. Suckling, Treasurer of  
the Canadian Pacific Railway since  
1908, died recently at Atlantic City  
after an illness of several months.  
He was born at Gibraltar in 1851  
and had been associated with rail-  
ways a treasury capacity since  
his early manhood.

J. C. Mitchell, of Dandina, Sask.,  
known as the "world's champion  
wheel grower" returned home re-  
cently from a lecture tour of the  
British Isles. "Go West, young man,  
or West" is his advice to all who  
wish to try their fortunes in the  
Dominion.

Speaking at Toronto, Hon. Charles  
McCrea, Minister of Mines for On-  
tario, said that the estimated output  
of the mines of the province this  
year will be around \$75,000,000.  
He was asked that by 1923  
Ontario was expected to top the total  
production of the United States.

A new Silver Trophy donated by  
the English Football Association to  
the Dominion of Canada Football  
Association for annual competition  
among Canadian clubs has arrived in  
Canada and will be on exhibition at  
Canadian Pacific stations at Mont-  
real, Toronto, Winnipeg and right  
across the West.

An expedition which will try to  
climb Mount Logan (19,358 feet) in  
the Yukon, the loftiest peak in  
Canada, is to leave Vancouver in  
April. It will be headed by A. H.  
McCarthy and Col. W. E. Foster, of  
Vancouver, and a gentleman  
man, including a representative of  
the English Alpine Club, will com-  
plete the party.

Agricultural products in the  
Province of Manitoba during the  
year 1924 reached a total estimated  
value of \$164,312,857, according to  
figures issued by the Provincial  
Department of Agriculture. This  
amount is nearly double that of the  
previous year and is accounted for  
largely by the big upturn in the  
price of wheat.

The shield which was taken from  
the gates of Old Quebec when the  
city was captured by General Murray  
and now in the possession of the  
town of Hastings, will be returned  
to the Ancient Capital. The Hastings  
Council have decided to return  
the shield which was presented to  
them by General Murray, a  
descendant of the famous soldier.

Mis Ethel Loginsky, tempera-  
ment pianist, gave another taste  
of her quality when she lectured a  
socially prominent audience for  
coughing in the middle of a concert  
at Englewood, N.J. "If you can't  
control yourselves, please don't stay  
here," she remarked. About fifteen  
disgruntled members of the audi-  
ence left the hall indignantly.

Trail Riders of the Canadian  
Rockies have developed the idea of  
using snow shoes for horses over  
the heavy snow tracks of that re-  
gion. In this way great quantities  
of supplies are brought considerable  
distances across trails that would  
otherwise be impassable for heavy  
loads. Trail Riders are holding  
their second great Pow-Wow early  
in August.

Devising a new kind of motion  
picture camera with a built-in  
motor that is almost noiseless in  
operation, Burton S. Moore, proprie-  
tor of the Nictus Camera in New  
Brunswick, has succeeded in taking  
about 4,000 feet of film of wild life  
in action which will be shown in due  
course on Canadian and United  
States screens. He has been particu-  
larly successful in depicting every  
motion in that special phenomenon  
by partridges known as drumming.

Over half of last year's western  
grain crop was handled by the Cana-  
dian Pacific Railway. According to  
data just issued by the Dominion  
Bureau of Statistics. Of the total  
grain inspection tonnage of 172,  
856 cars during the seven months  
to February 28 last, 92,256 cars were  
on the company's lines, representing  
57% per cent. while of the 130,157  
cars delivered at Port William and  
Port Arthur during the same period  
68,690 or 52.8 per cent are credited  
to the company.

## WORLD HAPPENINGS BRIEFLY TOLD

Mr. and Mrs. John C. Spinks, parents of General Charlton Watson Spinks, Inspector general of the Egyptian army, celebrated their golden wedding anniversary at Victoria, April 7.

A number of persons were killed and many injured when a train on which they were passengers broke for Irkutsk, Siberia, was overwhelmed by a huge avalanche.

A Rettford, Nottinghamshire, family, father, mother, daughter, son-in-law, four sons, their wives and 22 children sailed from Canada recently to take up land in Saskatchewan.

The Turkish National Assembly at Ankara has voted an extraordinary credit of 15,000,000 liras for the navy, to be used over a period of five years. It also voted 3,000,000 liras for the air force.

According to information given the special committee of the Alberta Legislature investigating the sale price of beer in the province by Liquor Commissioner R. J. Dinning, the hotelmen operating licensed premises are making a profit of from 150 to 190 per cent.

The balance sheet of the Government of Northern Ireland for the year shows a surplus of revenue over expenditure of £250,000. The figures on the surplus for the previous years of Ulster's existence as a separate state were £247,000, £232,000 and £246,000, respectively.

What is believed would be the largest apartment house in Canada will be erected at the northwest corner of Bloor Street and Bedford Road, Toronto, if the city consents to permit it. The building would be eleven stories high and would contain 600 rooms and bathrooms.

## Stomach Distress

### MRS. CHAS. TRIMPER

Zoar River, N.S.—"It is a pleasure to me to write a few lines about Dr. Pierce's Golden Medical Discovery. In August 1923 I was taken sick and a doctor was called. He pronounced my case inflammation of the stomach and attended me for about a week, but I was getting worse. My son advised me to try Dr. Pierce's Discovery. I did so, and am glad to say in twenty-four hours I was out of bed. I am still taking Dr. Pierce's medicine. I have not had a doctor since. I am feeling well for a woman past sixty. I would highly recommend Dr. Pierce's Discovery to any similar sufferer."—Mrs. Charles Trimper, Route 1.

Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Bridgeburg, Ont., and sold by all druggists in both tablets and liquid. Send Dr. Pierce 10¢ for trial pkg.

W. N. U. 1572

## Planning Mystery Trip For Giant Submarine

Crew of British Vessel Have Been Sworn of Secrecy

The biggest submarine in the world is preparing for a mystery cruise around the world, according to the Daily Express.

The Express says that the 351, five miles larger than British's own submarines, is lying at Chatham ready to embark on the cruise. The details of the cruise are as secret as those of the construction of the giant submarine, about which little is known except that it is a giant of its class. One hundred and twenty-one picked officers and men comprise the X-1's crew. These men have been sworn to secrecy about their craft and their approaching voyage.

It is known that the X-1 carries armament that almost would have sufficed for a first line battleship of the pre-war days. The submarine's cruising radius can only be judged from the fact that it is about to start around the world. The vessel is capable of remaining two and a half days below the surface of the water.

## Sour Stomach Risings Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergency use, always keep trusty Nerviline on hand. 35c at all dealers.

## An Attractive Cape Costume For Girls

Woolen plaid in a small, neat design is used to develop the neck and cape No. 1019. The costume consists of a one-piece dress with short kimono sleeves seamed on the shoulders, and panel front of contrasting material. The cape is semi-circular, and is lined with the same contrasting material forming the front panel of the dress. Made in sizes 6, 8, 10, 12 and 14 years. Size 12 years requires 3 1/2 yards of 40-inch material, and 1 1/2 yards of contrasting material for dress panels and cape lining.

## The Cruel Pain of PILES

"The cruel pains I endured from piles could only be fully realized by others stricken by this agonizing complaint," says Mrs. E. Reid, of Sarnia, Ont. "I thought I must suffer until I died, and despite all treatment was reduced to such weakness that I hardly dared to move."

"Then I heard about Zam-Buk and tried it, and I am thankful to say that this grand herbal balm proved equal to my case—bad as it was. I am now well, can do a good day's work with ease, and am free from the trouble which for years rendered my life one long agony. I shall never tire of recommending Zam-Buk."

Also for eczema, pimples, psoriasis, rash, boils, bad legs, corns, burns, etc.

Box No. 1 for 40c. All druggists.

## Zam-Buk Quickly SOOTHES & HEALS

## Air Travel Costly For Some People

Passengers On Lines May Be Charged By Weight

Fat men are much concerned over an announcement made by Dr. Hugo Eckener, who piloted the ZR-5 (now the United States Navy dirigible Los Angeles) from Friedrichshaven to Lakehurst, N.J., that passengers on the air liners of the future would be charged according to weight.

Dr. Eckener made the statement in a lecture before the Royal Aeronautical Society, explaining that for the ordinary voyage from London to New York the charge per passenger would be about one pound sterling for each pound of flesh.

## HAD BAD SPELLS WITH HER HEART

Mrs. C. Martin, R.R. No. 2, Orillia, Ont., writes:—"I have been troubled with my heart for a long time and very often had bad spells with it. I would take fainting spells, and my husband had to have somebody to stay with me all the time." He got me everything he could think of to see if they would do me any good, but nothing seemed to help me. One day a friend was in to see me and advised me to try

## MILBURN'S HEART AND NERVE PILLS

My husband went and got me two boxes, and after the first one I was finished I felt like a different woman. I cannot recommend them enough to all those who suffer with anything wrong with their heart or nerves."

Milburn's H. & N. Pills have been on the market for the past 30 years and are put up only by The T. Milburn Co., Limited, Orillia, Ont.

"All druggists handle them."

The dog, with the handsomest color doesn't always put up the gamest fight.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum. Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Lancashire Magistrate: Why do you not control your wife? Husband, lugubriously: A man can be a lieutenant-general in the army, but only a general in the navy.

## Bovril Advertised More And Earned Larger Profits

The statement presented a few days ago to the shareholders of Bovril, Limited, at their 28th annual meeting, held in London, show gross profits of £638,123, as compared with £571,491 for the previous year; net £390,992 against net £351,098.

Both the volume of business done and the net profits earned are records, and the amount spent in advertising was also the largest in the company's history.

And my poor brother! to visualize the leader of the patient oxen in the immediate future gazing somewhat mournfully on his desolate brethren, and in the words of a famous advertisement, muttering, "Alas! my poor brother!"

Advertising is largely responsible for the increased output, and Bovril thus affords a very striking example of how the consumer benefits directly from the judicious use of Printer's Ink.

Presiding at the annual general meeting of the Bovril Company, Sir George Lawson Johnston (chairman) emphasized the necessity for making life sufficiently attractive and remunerative to the primary food producer in newly-developed countries to induce him to stay on the land.

Town life, with all its attractions of cinemas, theatres, electric light, evening strikes and a host of neighbors to gossip with, was drawing the younger countrymen to the towns in these countries, just as it was doing at home.

Of those who went from the cities of Europe to the land in Canada, three-quarters eventually drifted back to the cities of that Dominion, where they were not particularly required. Probably only those who knew the country-side, the wild flowers, the trees and the birds, and loved a bit of real country sport, could get strongly attached to a new, lonely, spot—many miles away from any city.

Yet the country interests were often the life-blood of the whole—the cities merely the bottle-necks through which the good things grown poured and paid toll.

Agricultural and pastoral producers must keep in mind that Europe could only buy out of income derived in part from the sale of manufactures to the produce-selling countries, and that the European consumer could not afford a high range of prices.

An excessive price for wheat means privation, possibly starvation in Europe, and dear meat must eventually lead to reduced consumption.

Bovril Limited controls vast cattle estates in the Argentine and in Australia, and thus secure the beef for Bovril at minimum cost. It is this fact, added to the constantly increasing demand for Bovril which has enabled the company to maintain its low prices and yet in the face of most difficult trade situation and the payment of very heavy taxes, show record sales and record net profits.

The year just closed showed gross profits of £638,123, net £390,992. The capital employed in between twenty and twenty-five millions of dollars.

A Foe to Asthma. Givo Asthma European cure and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster.

There is no half-way measure about this remedy. It goes right to work and drives asthma out. It reaches the most breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Queer Fish in Sargasso Sea Dr. William Beebe, dredging the Sargasso Sea, reports taking some queer fish. One has feathers and long wavy hair. Another has eyes that protrude like periscopes upon the fretful submarine. A third propels itself with hands instead of fins, presumably using the Australian crawl stroke.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

## BIRTH OF A NATION!

### Stony Plain and District.

Miss Beatrice Oggordon, of the Royal Bank staff, Brackin, is visiting in Stony with her sister, Mrs. A. E. Michael.

The young gent, who was rushing the season by dashing to the City on Monday night with his Tin Liz met with an accident near Winterburn and was towed in by a wrecking crew.

Monday's train from Prince Rupert was nine hours late, and Tuesday's train from Vancouver was cancelled altogether, and the early-risers who wished to go to the City were forced to return home and wait till 10.30, when Vic Kellough took in a party of twelve in his big truck.

Some miscreant purloined the Red Cross box from the clerk's desk at the Royal hotel some time in the night of the 10th.

St. Matthew school re-opened today.

Mr and Mrs. H. Williams of Edmonton spent the holidays at the Grove with Mr and Mrs. H. Liebhich.

Mr. Nick Kinslin has moved to his new farm, at Glory Hills recently occupied by Hy Zeiler.

Mr. Zeiler has moved to the Gieselsmans north farm, 5 miles away.

Local farmers, and cattlemen are patronising the stock show in Edmonton, this week.

Mr. Kittle, journalist and philosopher, purchased a horse this week, and intends starting farming operations on his Pickleville domain.

Mr. Adolf Kulak of Rosenthal district, lost one of his work horses last week thru drowning, the animal having slipped into a hole in the ice on the lake. On Mr. Kulak's farm which had been left unprotected by those cutting ice during the past winter.

Councillor McKinlay had a gang out this week, fixing that low piece of road west of Comet schoolhouse.

Mr and Mrs. H. J. Woodley celebrated the 20th anniversary of their wedding at their home in Holborn district, on the evening of the 6th. A number of their friends were present at the affair, and a very good time was enjoyed by all.

Holborn U.F.A. has arranged for another dance the evening of Friday April 24.

The Hugh McDougall v. Val. Henning case is up for a hearing today in an Edmonton court.

Applications for auto licenses may be had at The Sun Office.

### St. Matthew's Y. P. S.

A meeting of St. Matthew's Y.P.S. was held in the schoolhouse Monday evening, with Mr. Erwin Golz in the chair. An address was given by Rev. H. J. Boettcher, on the work of the Society.

The chairman gave a short speech, outlining the sports in which the members of the Society will engage the coming season, which comprise baseball, tennis and basketball.

Another meeting will be held tonight, to complete the work of organising.

### Calendar.

April—  
16—Red Cross class, in Town Hall.  
17—Meeting of the Stony Plain Football Club.  
17—Lantern slide and lecture in the Methodist Church.  
17—B. Hildebrandt's sale, Golden Spike.  
21—Dances at Holborn Hall.  
29—District Court sits in Stony Plain.  
May 1—Inga Councillors meet in Stony Plain.

### Methodist Ladies' Aid Meets.

The annual business meeting of the Methodist Ladies' Aid Society was held at the home of Mrs. Fred Lundy on Tuesday afternoon, April 7th, all members being present.

After the routine business, Mrs. Umbach, the treasurer, read her report, showing a splendid year's work, with a good balance in bank.

Rev. Whelan took the chair during the election of officers, and in a short address congratulated the members upon their industry and wished them success for the coming year's work.

The following officers were elected:

Pres.—Mrs. J. F. Clarke, re-elected.

Vice-Pres.—Mrs. Brooks.

Sec.—Mrs. F. W. Lundy, re-elected.

Treas.—Mrs. R. A. Walton.

Convenor, fancy work committee—Mrs. Malloch.

Convenor, plain sewing committee—Mrs. Wight.

Convenor, music committee—Mrs. R. M. Outway.

Convenor of social committee—Mrs. Brooks, with Mrs. J. H. Lory and Mrs. Kowensky assisting.

Mrs. Clarke, upon resuming the chair, stated that Mrs. Umbach had been the treasurer for seven years, and asked the members to express their appreciation of Mrs. Umbach's faithful work, in the usual form.

At the close of the meeting, Mrs. Lundy, assisted by Mrs. Walton, served a very dainty lunch.

### Red Cross Classes.

On Wednesday April 8th a meeting was held in the Town Hall for the purpose of organising classes, under the auspices of the Women's Institute.

Mrs. Malloch, the president, in a few well-chosen words, introduced the speaker, Miss West, of the Canadian Red Cross Society, Calgary.

Miss West, in her talk, outlined the work, telling the relation of these classes to the home; also their purpose in helping non-professional people to nurse sickness in the home, under the direction of a doctor.

Following her address, Miss West demonstrated the first lesson of the course "Making the Sick Bed."

The course consists of 12 lessons, given weekly. The fee is \$1, or 10c per lesson. This includes a book on nursing.

Mrs. Roy Walton was appointed the secretary for the course.

The next meeting will be held in the Town Hall on Thursday evening April 16, when the second lesson will be given.

### Parks Board Meets.

Stony Plain Parks Board met Thursday night at the office of Mr. Forrester and planned the season's work at the local pleasure resorts.

Messrs. T. J. Hoadwick, J. H. Forrester and G. W. Donaldson were present.

G. W. Donaldson was elected chairman and J. H. Forrester secretary for the ensuing year.

The board decided to purchase 100 three-year-old native white elm trees. A limited number of these will be offered to ratepayers at 25c apiece. Particulars from Secretary Forrester.

Following are the revenues and expenses of the board for the past nine years: Expenses 1917-1925 \$510.89; Revenue, 1916-24 \$777.75; an average revenue for each year of \$29.65.
